3.2.1 Institution has created an ecosystem for innovations and has initiatives for creation and transfer of knowledge

ACADEMIC YEAR

2017-2022

Our vision is to be a joyful learning community, nurturing creativity for a sustainable future and mission is to develop ‘innovative thinkers’ through learner centric education platform using **experimental pedagogy**.

To achieve vision & mission, we are committed to take initiative and provide ecosystem, support & guidance for transfer of knowledge.

To inculcate innovative thinking and transfer of knowledge, activities are conducted through cells such as Kaveri Research and Innovation Cell(KRIC), Kaveri Entrepreneurship Development Cell(KEDC), Kaveri Skill Development Cell(KSDC) etc.

Industry-Institute, Industry-Society and Institute-Institute interactions are encouraged.

Activities carried out by Kaveri Entrepreneurship Development Cell (KEDC) for promoting innovation & entrepreneurship activities.

GREEN HILLS GROUP
KANNADA SANGHA PUNE'S KAVERI COLLEGE OF ARTS, SCIENCE AND COMMERCE, PUNE

Our Earth has been constantly trying to cope with the way in which human beings use natural resources, clear forest lands, cut trees, and contaminate the air, land, and water. Afforestation is therefore, a practice that has been propagated by government and non-government agencies of many countries as a way to stop over-exploitation of nature.

OBJECTIVES

1. To understand the meaning and importance of Afforestation.
2. To understand the contribution for Afforestation from specialties at national and regional level.
3. To give suggestions and recommendations.

PRIMARY:
Field work with GREEN HILLS GROUP TRUST IN PUNE.

SECONDARY:
Data collected through various websites about campaigns and missions in action for Afforestation at regional and national level.

AT NATIONAL LEVEL

Green India Mission
MISSION OBJECTIVES:

1. To improve ecosystem services including biodiversity, hydrological services and carbon sequestration as a result of treatment of 10 m ha.
2. To increase forest-based livelihood income for 3 million forest dependent households.

National Afforestation & Eco-Development Board:
The National Afforestation and Eco-Development Board (NAEB), set up in August 1992, is responsible for promoting Afforestation, tree planting, ecological restoration and eco-development activities in the country, with special attention to the degraded forest areas and lands adjoining the forest areas.

AT REGIONAL LEVEL-PUNE
Pune Municipal Corporation Initiative-Tree Census Project

Geotagging can help users find a wide variety of location-specific information from a device. Geotagging-enabled information services can also potentially be used to find location-based trees, websites or other resources under the tree census project to survey trees at various locations using GOOGLE MAPS.

1 STUDENT

The study suggests that, if the students of every college voluntarily join hands with the NGO for these activities and ensure to dedicate all efforts and time towards environment protection, the capacity of planting trees will automatically be strengthened.

The study suggests that, if the students of every college voluntarily join hands with the NGO for these activities and ensure to dedicate all efforts and time towards environment protection, the capacity of planting trees will automatically be strengthened.

The chain of tree plantation will be carried throughout the academic curriculum of SPCC's courses.

If in the year of graduation, a student can work for plants from throughout the year the student will work for its maintenance and take the responsibility of the plants. This will enhance the active participation of students and include the sense of responsibility in terms of the youth towards environment protection. The campaign will then continue in the subsequent academic years. This will add to constant contribution to the growth to the environment.

The idea behind our this proposal is emphasizing the responsibility and sense of responsibility towards environment amongst the youth in this biodiversity world.

This 1 student 1 plant scheme can be introduced in every college ensuring approximately 1 million plants planted by the 100+ educational institutes of SPCC in each year.

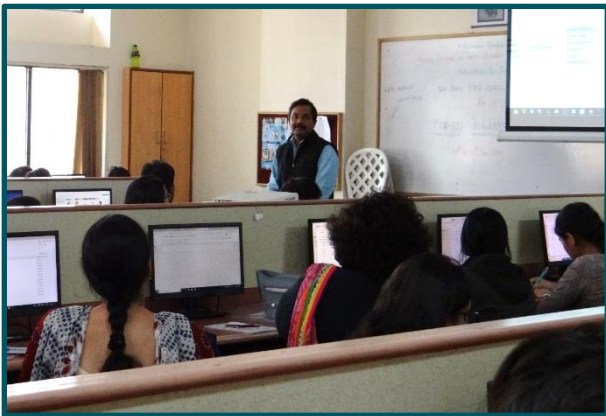

Level the plantation of tree plantation
