The programme was conducted by Mr. Pankaj Mathkar under BSE Investor Protection Fund. During his speech Mr. Pankaj Mathkar explained about Bombay Stock Exchange (BSE) - it's history, he explained that a capital market is a financial market in which long-term debt (over a year) or equity-backed securities are bought and sold, in contrast to a money market where short-term debt is bought and sold. Capital markets channel the wealth of savers to those who can put it to long-term productive use, such as companies or governments making long-term investments. He emphasized that every student should be ready with Plan-B for his / her career and encouraged the students to go for the careers in this field. He asked the students to appear for the various exams conducted by NCFM and AMFI. He mentioned that transactions on capital markets are generally managed by entities within the financial sector or the treasury departments of governments and corporations, but some can be accessed directly by the public. At the end he answered the questions asked by students.
