Completed her B.Tech in electrical engineering from NIT Nagpur. Changed the course with Post Graduation Degree in MBA HR from Pune University, PUMBA.

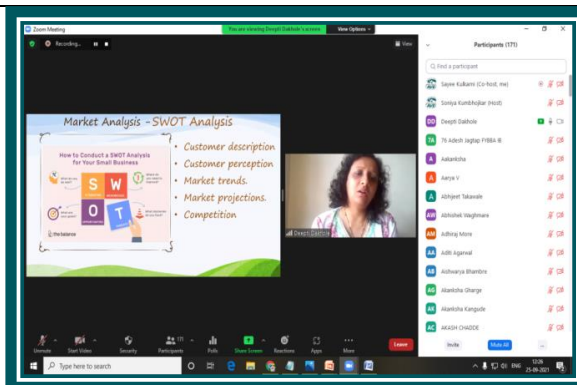

Followed by 5 years of corporate experience with the Tata Group.

Then again changed the field and took up entrepreneurship as early birds on online portals with no business background or prior experience. We are manufacturer and sellers of Kids Apparels by brand name My Lil Princess on Amazon, Flipkart, Glowroad, Meesho etc. We started with Snapdeal, moved to Flipkart and then to amazon. And in a short span of 6 years now we are one of the market leaders on amazon in our category and this gave me a complete understanding of all the subjects we learnt in MBA like supply chain, HR, sales and marketing and could experience all the subject matter being used on daily basis like JIT, Poka Yoke, warehousing, promotion planning, procurement etc. we have been awarded as best seller on Flipkart and Amazon.

With this online exposure I got interested in Marketing and currently also pursuing a sting in PhD from Wadia college.

Report:

The session focused on digital entrepreneurship, how to have a startup and the techniques to achieve the business goals using digital means. Ms. Dakhole elaborated on the importance of business plan and its components like product, produce, material, budget, profits and competition. The resource person suggested that one should relate product life on digital platform with Bottom of the Pyramid theory given by the great management thinker C. K. Prahalad.
