Date: 2 December 2021

Report:

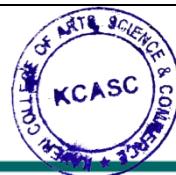

Excursion Committee of Kannada Sangha's Kaveri College of Arts, Science and Commerce, Pune organized a virtual Industrial Visit for the students of FYBBA, FYBBA IB and FYBBA CA on 2 December 2021 to Annapurna Lakdi Ghana Pune

Annapurna Lakdi Ghana deals with traditional methods of wood press oil extraction. The company mainly focuses on chemical free products for a healthy living. The process of cold pressed oil extraction was shown to the students through a video lecture in which how the seeds are loaded to the crusher and after crushing the oil gets extracted and then the process of sedimentation and finally the end product which is ready to be packaged and delivered were shown. Glimpse of the company's journey over the years, the internal working of the company and the different products they deal with were shown to the students.

This visit was a good learning experience for the students. The visits helped the students to understand startup and growth of small scale industries. This visit provided an opportunity for the students to get an experience of the industry operations.

Date: 2 February 2022

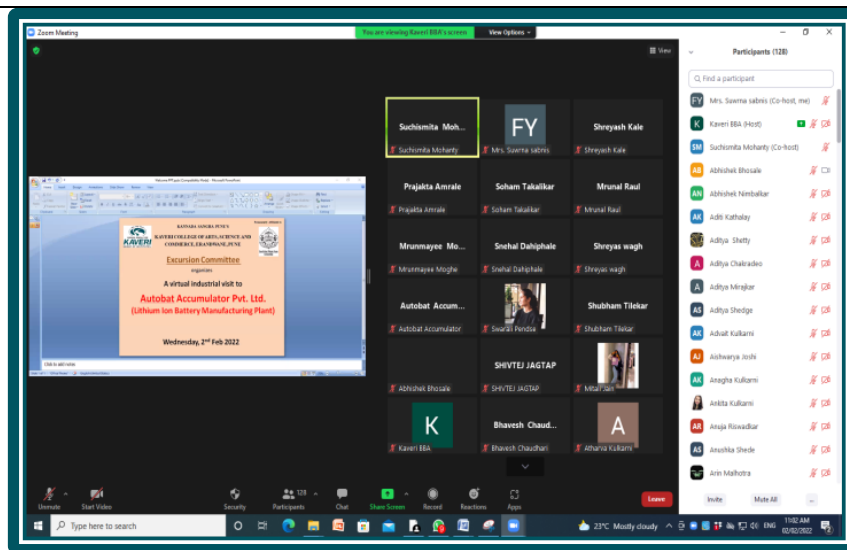

Report:

A virtual industrial visit to Autobat Accumulator Pvt. Ltd. Lithium-ion battery manufacturing plant was organized on 2 February 2022 by Excursion committee of the college. This visit was conducted for the students of TYBA, SYBSC and TYBSC.

The event was started by Dr. Shweta Bapat, head, Excursion committee by introducing the authorities of the Company. The presentation was given by Mr. Prasad Reddy, Head, lithium department along with Mr. Shriniwas Ambat senior manager and Ranjit Patil - technical associate, Autobat Accumulator Pvt. Ltd.

They explained about whole journey of Autobat Accumulator Pvt. Ltd. From where they were started, how they have made changes in the product according to customer's order, the challenges they faced during pandemic period, how they export and import the raw material and other goods, etc. There was conducted a virtual walk through their various departments and machinery setup. The main attraction of the visit was Actual live manufacturing process which was shown to the students to understand how the batteries are manufactured.

At the end question and answer session was put up at the end of visit. Students have asked various questions about the industry and its working and got satisfactory answers from Mr. Reddy.

Date: 4 May 2021

Report:

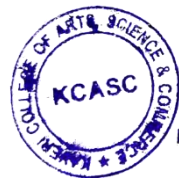

The objectives of the visit were-

1. To learn the production process of door manufacturing.
2. To understand different challenges faced by an entrepreneur and the organization
3. About the entrepreneurial skills required to manage a small scale business.

An industrial visit of FY BBA, FY BBA(IB), SY BBA and FY BBA(CA) was organized on 4 May 2021 on the Zoom platform to Swastik Door Manufacturers. The visit included an interaction with Mr. Adinath Barne, Director, Swastik Door Manufacturers, a virtual visit to his factory followed by a question answer round. He talked about his journey of entrepreneurship and how he entered into the business. Later on a video telecast of his factory was shown to the students, where all the processes of door manufacturing like bonding, heating, stapling, lamination etc were explained in detail by Mr. Barne. He shared his success story that in spite of being not well educated he has created a line of business which includes the factories, hotels etc. He concluded his interaction with a message of managing time and maintaining a work life balance. The students learnt about the spirit of entrepreneurship, the hard work and dedication and marketing skills required for doing any business. 195 students were present for this virtual visit.

Name of the Company: Annapurna Lakdi Ghana

Date: 5 May 2021

Report:

The objectives of the visit were-

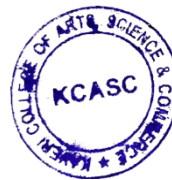

1. To learn the production process of different types of edible oils manufactured by Annapurna Lakdi Ghana.
2. To understand different challenges faced by the company.
3. To learn entrepreneurial skills.

Mr. Akash Shinde Director, Annapurna Lakdi Ghana, shared with the students that initially he had a plant located at Chakan where production of oil was done using traditional methods.

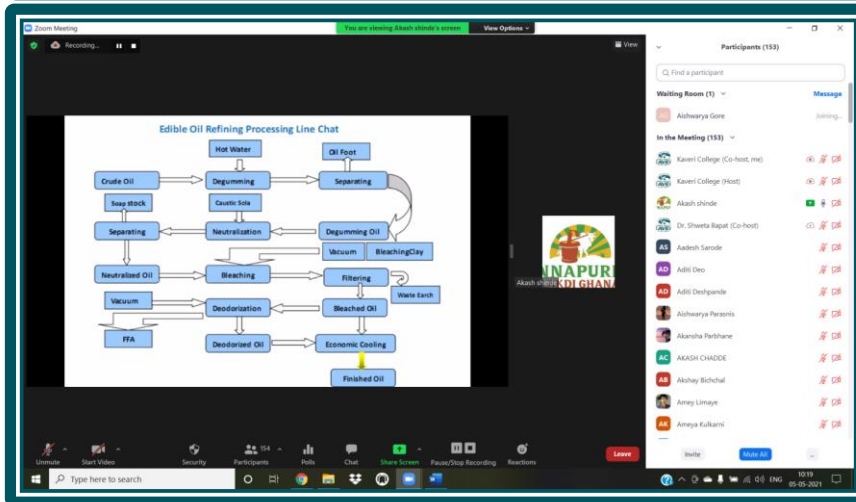

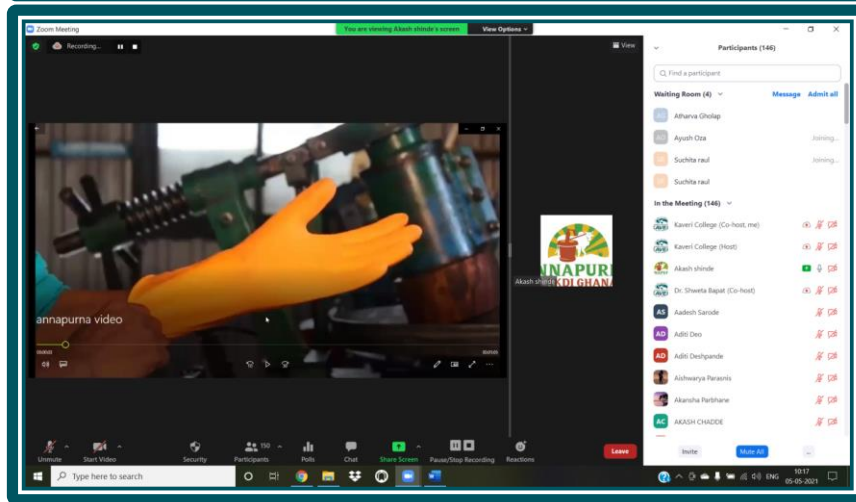

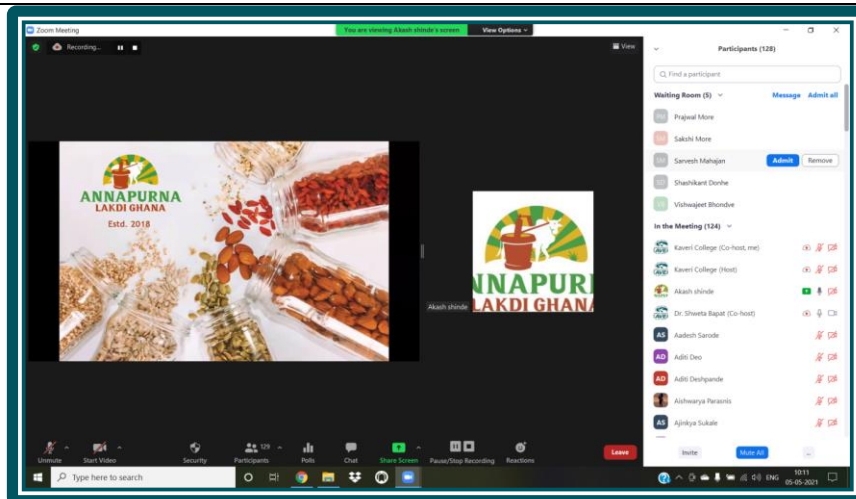

Later, he established the Annapurna Lakdi Ghana at Pimpri-Chinchwad in 2018. Annapurna Lakdi Ghana, an Edible Oil Manufacturer, follows the traditional technique of extracting the purest form of Oil from seeds and manufactures edible oils like Groundnut Oil, Sunflower Oil, Sesame Oil, Flaxseed Oil, Coconut Oil & Almond Oil. The company is Food Safety and Standard Authority of India (fssai) approved and ISO certified for Food Safety Management and for Quality Management. The company delivers their products all over India. The company follows the batch production process. The oil is heated only once at the temperature of 40-45 degrees unlike other refined oils where the oil is heated 2-3 times at around 200-300 degrees.

The key feature that attracts customers is that the company shows live manufacturing of their products that helps them build trust with their customers. The company faces challenges with respect to transportation, raw material rate fluctuations, commodity farming and issues related to by product storages. Company's future plans are franchisee establishment and of exporting their products to other countries along with India. Throughout the virtual visit Mr. Shinde emphasized on the fact that the company fulfills the social motive as well. The company has a big contribution towards 'Bachat Gat' and it encourages women to work by providing them job opportunities. The visit ended with a questions answer interactive round with students.

The total number of students present was 160.

Name of the Company: Harman International

Date: 10 October 2021

Report:

Bachelor of Business Administration (Computer Application) Department arranged an online Industrial visit to Harman International with the resource person Mr. Amit Bagaitkar Director product engineering at Harman International who has more than 20 years of work experience. Visit was arranged for all the students of BBA(CA) and BBA department on 10 July 2021.

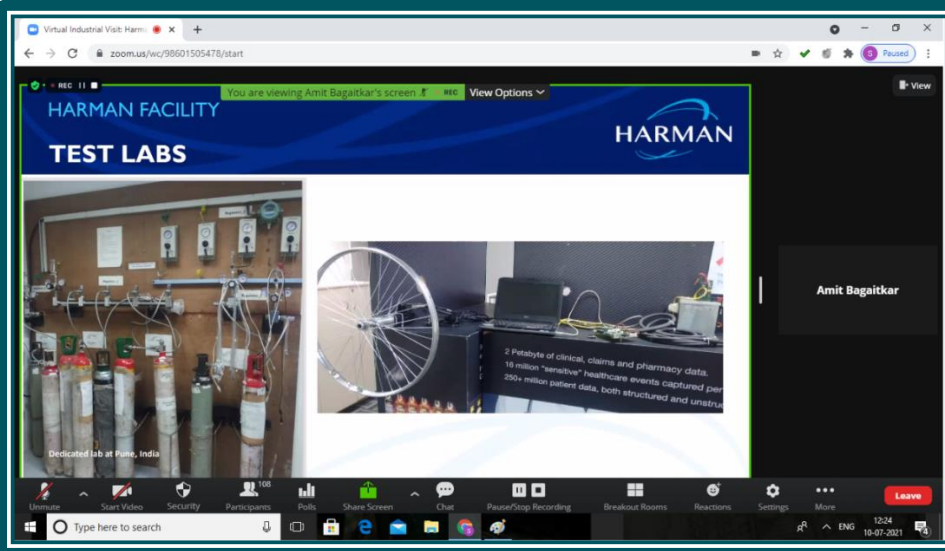

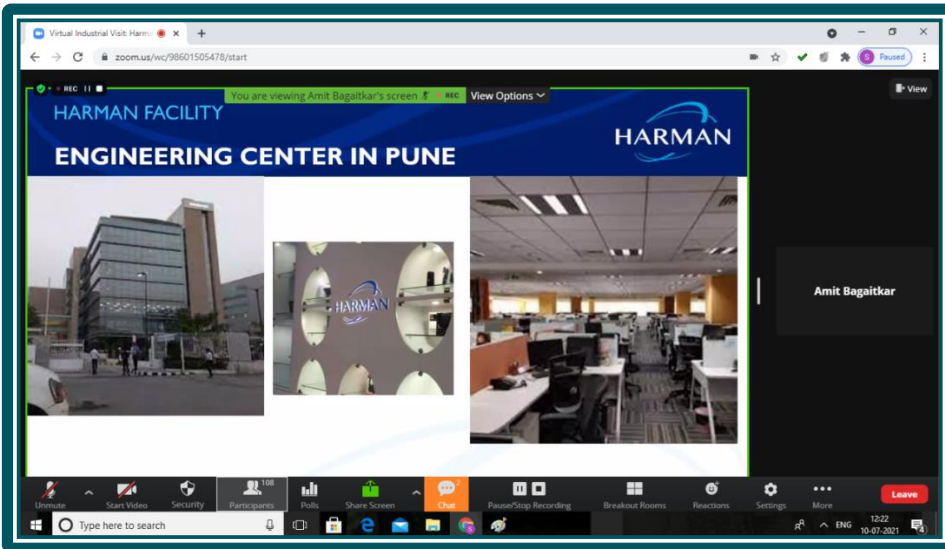

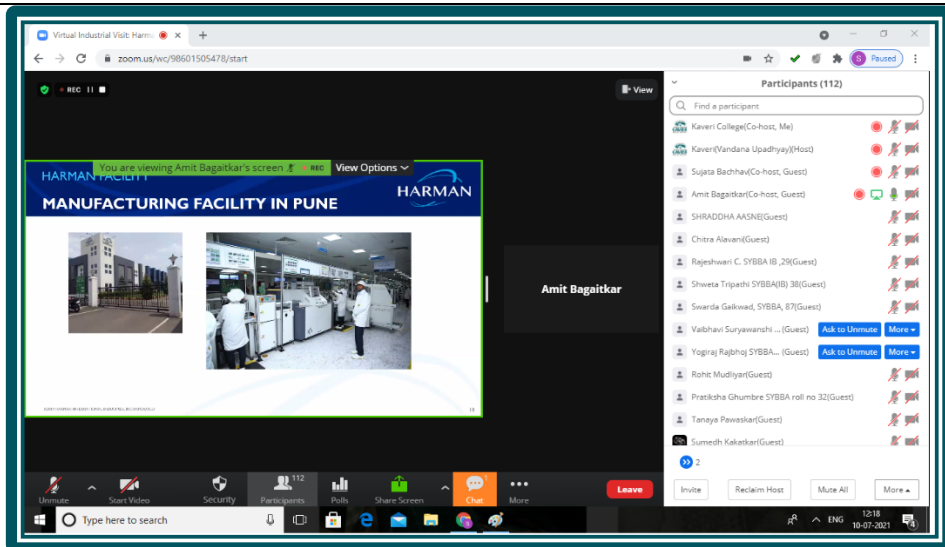

HARMAN International is a global leader in connected car technology, lifestyle audio innovations, professional audio and lighting solutions along with design and analytics. The company has its presence in over 30 countries around the world. Most importantly, the company's track record of innovation, which has distinguished HARMAN and its premium audio and infotainment brands like JBL for more than 60 years.

Mr. Amit Bagaitkar introduced different departments of the company as well as working of those departments in brief like Engineering/Manufacturing, Sales, Marketing, Finance, Administration, Human Resources, Procurement to the students. Which helps students to find various work opportunities in such a multinational company. He explained the journey of the product life cycle which includes different phases starting from companies' strategy to marketing requirements and voice of customer to actual product launch. Because of which students got actual knowledge of how products are developed in companies. Sir shows them different units of the company like testing unit. Also, he gave information on some products like 1st NEONATAL NON-INVASIVE BREATH ANALYZER which are manufactured and invented in their own company. At the end of visit Mr. Bagaitkar gave demo with the help of photos of all sections of company and explained working of each section.

Overall, it is rightly said that "See & know" is better than 'read & learn'. Students have got a real feel of the company's working after this visit. They get motivated for learning the new technologies as well as they got a general idea of the skills required to work in companies.

Date: 28 August 2019

Report:

The college had organized an Industry Visit for the students of SYBBA, TYBBA and TYBBA IB on 28 August 2019 to Pacific Semiconductors private limited near Shivne, Pune and Bhagirathi Foods at Warje Pune.

Pacific Semiconductors Private Limited (PSPL) company and offers design, development, manufacturing, assembly-integration for the Indian Armed Forces and Ordnance Factories. Their vendor list includes a large number of units of the Indian Naval, the Indian Air Force. Mr Prashant Deshpande is the founder Director of Pacific guided the students and Showed them the Assembly room and explained about different PCB assembly, salt room test and vibration test etc.

Bhagirathi Foods is a chocolate manufacturing company which manufactures both dark and white chocolate. They showed the students the making of chocolate inside a huge roller and chocolate bars getting made and neatly packaged for final distribution. These two companies provided the students with real insight of working procedure of the organization.

The visit at both the Companies provided an opportunity for the students to get a hands-on learning experience of the industry operations.

Around 96 students benefited from the visits. The visits helped the students to understand startup and growth of small scale industries.

Name of the Company: Mercedes-Benz and Niky Polymers

Date: 18 October 2019

Report:

Mercedes Benz is a German global automobile marque and a division of Daimler AG. The brand is known for luxury vehicles, buses, coaches and trucks. The headquarters is in Stuttgart, Baden- Württemberg.

Set up in 2009, Mercedes Benz India's world class production facility is spread over 100 acres in Chakan near Pune. Since June 2015, Mercedes Benz India also commenced production from its new expanded production facility located in the same premises. INDIAN customer preference for Mercedes Benz is over 38%. MB has 97 outlets in more than 47 cities and 4500+ employees.

The plant in Chakan consists of Centre of Excellence, Q1, Q2, Q3 assembly lines, Paint shop, Admin, Test track and Wearhouse. It is the only company which has its own Test track.

Purpose of the Field Visit was to understand recent trends and strategic management in relation to Marketing, HR & Finance.

1. PRODUCTION DEPARTMENT:

9 models are manufactured in the Chakan Plant.

Over 11,000 parts are used to manufacture 1 model. First main body of the model is manufactured, then 7 layers of paint are coated on the model. Then it is sent to ASRS and after that actual assembly is done ie. Doors, windows, engines, seat covers etc are assembled in the structure. After that model is checked on the Test track and then it is sent to WHP/ VPC.

Production consists of mainly 3 steps:

- a. CKD- Complete knocked down
- b. SKD- Semi knocked down
- c. CBU- Complete built unit.

15 years of guarantee is given by the company. Models of Mercedes Benz are IATF 16949, ISO 45001, ISO 14001-2015 approved. SQDCM is the moto of the Production dept.

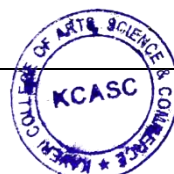

S- safety monitoring

Q- quality

D- delivery

C- cost

M- morale.

Chakan Production Plant has supported Russia, Vietnam, Brazil and Indonesia for the production process.

2. **MARKETING DEPARTMENT:**

Efficient communication is the prime component of Marketing Dept. Marketing team of Mercedes Benz is divided into 3 streams:

- a. Brand team
- b. Retail marketing
- c. Expedient marketing

Media plays a very important role in Marketing. Most evolving media channel is Digital Marketing.

3. **HR DEPARTMENT:**

Employee welfare is of the utmost importance for HR dept. It provides Employee Provident Fund, Gratuity, ESIC, Pension. Apart from that, retirement benefit above statue is also provided. Medical loan, health incentive, housing subsidy. Different schemes are also provided related to transport, scholarship and education.

One of the special feature provided by the company is Paternal leave for 10 days. Actual working hours of the employee are 9.5. Work from home facility is also available.

Suggestion Awards are given to the employees for better work performance and to boost their morale. Category for this award is innovative idea and saving. In the year 2019, till Sept, 265 Suggestion awards are given.

Family day, Sports day are also held annually. All these schemes and awards help employees to connect with each other and results in better efficiency, cooperation and team building.

Niky Polymers also known as Mulay Polymers Pvt Ltd is a manufacturer of of Bike Plastic Handle Grip, Bike Plastic Visor and Car Plastic Dashboard. The factory is situated in Chakan near Pune.

One of the major dept in the factory is Production and Operation Dept along with Purchase, Marketing and Accounting Dept. Total 120-130 variety of products are produced in the factory. On the shop floor level 23 machines are used. There are 2 production Heads and 4 Supervisors to manage and guide the daily production process.

First Cell of the Production Dept is of raw material storage. 80-90 types of raw material is stored in the metal racks. Mainly Quality Check of the raw material is done in this cell. Issue Slips are prepared according to material issued. Raw material is classified and stored

[Signature]
PRINCIPAL

Kannada Sangha Pune

Kannada College of Arts, Science & Commerce

on the basis of colour coding. Defect matrix chart is prepared to avoid further processing on defective raw material.

Next process is of Mould Change. Here a Mould Change Machine is used. Lowest capacity of the machine is 80 tonne. 8 hrs is the daily working time capacity of the machine. There are 5 stages in this machine as follows:

1. No load
2. Mould change
3. Machine under maintenance
4. Mould running
5. Mould breakdown

Second process is of Injection Moulding. It is a colour mixing process (an illustration was shown of blue coloured tray during the field visit). There are following steps:

1. Master batch- 2.5% of color is used for one product
2. Pre-heat- moisture is removed
3. Barrel injects model through 7 Gate process.

Hourly reports are prepared called Operation Maintenance Reports.

The third process uses STL Machine. It is a heating machine. It detects the defects like shifting of sticker from actual space, bubble formation. Short print etc. Then Ultrasonic Handle Welding Machine is used for side welding. It is applied for leakage prevention. To tack the defect, machine no., date of production, shape of the product are traced down.

Next process is Inspection. Operation Inspector uses the visual inspection method to approve the finished product.

Last process is of Storage and Dispatch of finished goods. Here, finished goods are stored in the storage room and dispatched as per delivery. Transport System is provided by the customer for product delivery. Production Schedule of these products depend upon customer requirement; it can be daily, weekly or monthly. Production of these plastic products is a continuous process.

Subject: Request for a visit to your esteemed organization

Respected Madam,

Industrial Visits are an important part of academia, hence, we request you to grant us permission for an industrial visit to your esteemed organization, Mercedes-Benz.

There would be 50 students accompanied by two faculty members. The students are from Management faculty pursuing their BBA/BBA (IB) with specializations- Marketing, Finance and HR.

The purpose of this visit is to have a practical understanding of approach, recent trends and strategic management in relation to Marketing, HR and Finance in a large scale manufacturing unit like Mercedes Benz.

Looking forward!

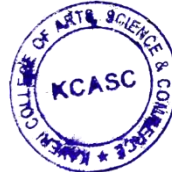

Thanking You!

Regards!

Dr. Ashok Agrawal.

Principal.

Name of the Company: Chitale Bandhu Mithaiwale and Cubix Automation Pvt. Ltd.

Date: 25 January 2020

Report:

Kannada Sangha Pune's Kaveri College of Arts, Science and Commerce organized an Industrial Visit to Chitale Bandhu Mithaiwale, Ranje Mfg. Unit and Cubix Automation Pvt. Ltd on 25 January, 2020.

The objective of the visit to Chitale Bandhu Mithaiwale was to understand the working of assembly line production facility, customer satisfaction, and quality management of the company and to know various factors that steered company to attain leadership in food and confectionary market. The students studied the production of Bakarwadis at the shopfloor. The purpose of the visit to Cubix Automation Pvt Ltd was to learn how Artificial Intelligence is replacing manual work, strategic management, and automation.

All the products at Chitale Bandhu are manufactured with minimum manual intervention to retain consistency in quality and hygiene. The company follows the principle of 'People before Product' to retain its employees.

Mr. Avinash Joshi at Cubix Automation, explained the need and importance of Robotics and AI to the students. The students witnessed the work of 'Pick up and Place' Robots. Cubix maintains a wide range of Factory Automation products.

The total number of students was 75.

Kaveri College of Arts, Science & Commerce

Name of the Company: Persistent Systems Ltd.

Date: 28 February 2020

Report:

Kannada Sangha's Kevari College of Arts, Science and Commerce, Pune organized an Industry Visit for the students of FYBBA(CA) on 28 February 2020 to Persistent Systems Ltd, Pune.

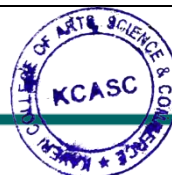

The industrial Visit is an interface between the college life and the corporate world. The purpose of the visit was to interact with software industry to understand current market scenarios, latest most demanding technologies and criteria for selection etc.

Mr. Sidharth Pendse HR Manager, Mr. Dominic D'Mello HR person and Mr. Venki technical head conducted very informative session for the students. Also they motivated the students to choose their domain and area of interest. Mr. Venki gave a presentation on journey and success story of the company over the years. He discussed about the latest technology trends in IT and focused on bringing innovation in technology .After the presentation the newly joined interns from the company demonstrated their projects and shared their own experience as a fresher in the company. The next presentation was by Mr. Sidharth and Mr. Dominic This session was based on HR and interview technique at Persistent Systems. They gave an insight into the working of the company .They discussed how one can be a part of Persistent Systems, the complete interview process like objective test, technical, coding and HR rounds. They told the students to learn basics and fundamental of each subjects and programming language thoroughly. The session concluded with Question- Answer round. Many of the students asked different questions on current demanding technologies, market scenarios, pay packages etc. After the presentation the students were allowed to visit the campus.

It was an informative, interesting and a successful visit. Around 53 students benefited from the visits.

Kannada Sangha Pune's
Kaveri College of Arts, Science & Commerce

Name of the Company: Hindustan Coca-Cola Beverages Pvt Ltd and Kawre Ice Creams Pvt. Ltd.

Date: 7 March 2020

Report:

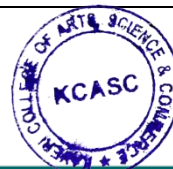

Kannada Sangha Pune's Kaveri College of Arts, Science and Commerce organized Industrial visit to Hindustan Coca-Cola Beverages Pvt Ltd in Pirangut, Pune, Kawre Ice Creams Pvt. Ltd., Pune on 7 March, 2020.

Objective of the visit to Coca-cola was to understand working of beverage production, Automation, quality management of a world Class Company and to know various factors leads to one of the leading company in world beverages.

Hindustan Coca-Cola Beverages Pvt Ltd in Pirangut, Pune is a top player in the category Beverage Retailers in the Pune. This well-known establishment acts as a one-stop destination servicing customers both local and from other parts of Pune. Over the course of its journey, this business has established a firm grip in its industry. The belief that customer satisfaction is as important as their products and services, have helped this establishment acquire a vast base of customers, which continues to grow by the day. This business employs individuals that are dedicated towards their respective roles and put in a lot of effort to achieve the common vision. and larger goals of the company. In the near future, this business aims to expand its line of products and services and cater to a larger client base. In Pune, this establishment occupies a prominent location in Pirangut. Hindustan Coca-Cola Beverages Pvt Ltd in Pirangut has a wide range of products and services to cater to the varied requirements of their customers. The staff at this establishment is courteous and prompt at providing any assistance.

Mr. Pravin Jadhav(Head – HR) welcomed us to the unit. He mentioned that a duplicated workforce, along with technology and automation has ensured the quality parameters. All beverages at Coca-cola are produced with the use of technology and machines manufactured, to maintain quality and hygiene.

The students had been shown water treatment plant, raw sugar syrup processing room ready syrup room, testing lab, packaging unit and distribution unit uses machinery for throughout all production. They are having 106 operators working with 60 workers supporting them. They have maintained good hygiene for all process of production. In the process of production, they uses machinery from water plant till the distribution process. The security was maintained in all the levels. Before starting the visit, students have shown the safety and hygiene measures video for better understanding, all students have provided hair cap.

Kaveri College of Arts, Science & Commerce

Students have asked questions about the placement policy, work environment, salary structure, hygiene maintenance. Mr. Jadhav answered them and also told that maintain hygiene is the priority of the company. They are the only manufacturing unit of Coca-cola beverages cans in India. The employee's safety and happiness is maintained by them. The employees are very happy to work with the company and treated company like their home. The visit ended with a positive note, vote of thanks and an approval for future association with the company.

The purpose of visit to Kawre Ice Creams Pvt. Ltd. was to learn production facility, customer satisfaction and quality management in ice-cream production.

From the very beginning, Kawre Ice Creams had only had one goal, which is sheer indulgence. Starting from one man show with a hand cranked machine in 1952 as a small retail outlet, it now has a production capacity of 10000 litres a day at sophisticated plants, located at Khed Shivapur. Kawre provides an affordable ice cream experience and family fun for everyone by offering a variety of flavours and products that not just include ice creams but also shakes, mastanis, kulfis etc. With its diverse range of ice creams and the quality delivered at all times, the brand of Kawre has captured a substantial share of the Maharashtra ice cream market. For over 60 years we've been delighting customers with our irresistible treats and we insist and intend to continue this tradition with the latest in technology and the highest in quality.

Mr. Yogesh Kawre (Factory Incharge) welcomed us to the unit. Due to the limited space in the factory, the students were divided into three batches. He and his team has explained the students about the production process and how the ice-cream is prepared from the Milk. The students have also seen the machinery used for the purpose. They observed the ongoing process of preparing the Strawberry ice-cream and packaging of the same. Students visited the various departments in the factory viz. Stores, Production, Packaging, Testing, Accounts, etc.

All the students have been offered with a cup of Pista ice-cream after the visit.

Report:

"Success in management requires learning as fast as the world is changing"

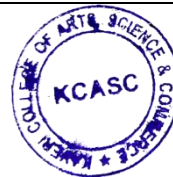

-Warren Bennis

With respect to above quote, it is important to be adaptive to become a successful person. In management courses like BBA & BBA(IB) we focus on the industry exposures for the students for their development. The industry exposure helps students to learn how an industry works, how the theoretical knowledge is implemented in the industry and so on. Therefore organizing an industrial visit for students helps them to observe how an industry is functioned or run.

On 11th August 2018 the industrial visit for SYBBA, SYBBA(IB), TYBBA(IB) students was organized for two companies PARI and Mother's Recipe which are located at Shirval, Maharashtra. PARI is into robotics and automation which gives an exposure to the manufacturing industry and Mother's Recipe is into food processing which produces different kinds of pickles, papads, pastes etc. which gives an exposure to the food processing industry.

The main intension behind having different industries at the same time is that the students should understand that every industry has its own boundaries to play and they have different characteristics as well. The experts in these companies help the students to explore different units in the company along with that they also explain them the functioning for the same. It is important that the students should observe the processing of the different units and be curious enough to gain more practical knowledge form these experts.

Mr. Wani from PARI and Mr. Shende from Mother's Recipe helped us during these visits. The efforts which they have taken for our students were remarkable. The arrangements and the welcoming gestures in both the companies were commendable. Even all the supporting staff was very cooperative and helpful. The total number of students who attended the visit was 55.

Respected Sir,

On behalf of Kaveri College of Science and Commerce, Pune, I would like to thank you for granting us the permission to visit your esteemed organization.

The main reason of the visit is to show our students the working of a large industry like yours. We really appreciate the efforts taken to organize the visit of our students to your organization which gave them the insights of the actual working of a large scale manufacturing unit.

We look forward for the long association with your organization.

Name of the Company: Accenture, Magarpatta City, Pune

Date: 4 January 2019

Report:

This visit was organized for the students of SY BBA(CA) and TY BBA(CA). The students of Computer Application had an exposure to the progress and future prospects of Information Technology like Artificial Intelligence. Accenture solves our clients' toughest challenges by providing unmatched services in strategy, consulting, digital, technology and operations. The date of visit was 4 January 2019.

In his introduction, Mr. Sumjeet mentioned that Accenture solves our clients' toughest challenges by providing unmatched services in strategy, consulting, digital, technology and operations. Applied Intelligence is intelligent technology and human ingenuity applied at the core of business – across every function and process– to address our clients most complex challenges. Concepts like Virtual Reality, virtual Augmentation, Microprocessing were discussed. The term 'phygital' was introduced to students which means the congruence of physical senses with digitization with various current examples and services provided to their clients. We take this opportunity to thank Mr. Mahesh Zurale for allowing our college to students to visit Accenture.

Around 33 students were benefitted from the visit.

Thanking Mr. Sumjeet Gupta and his team for guiding the students on 4 January 2019

Date: 23 August 2017

Report:

Industrial visit of students of FYBBA, SY BBA and SY BBA (IB) was organised to Niky Precision Pvt. Ltd - Chakan and Savan Tools and Ancillaries Pvt. Ltd. Bhosari MIDC. The Managing Director Mr. Nitin Mulay welcomed the group and gave a presentation about the company. Thereafter the group was split in two and were taken on a round of the machine, assembly, and testing and warehouse section. The students saw processes like turning, mixing of materials, heating of the components and the entire injection moulding process. Various coloured raw materials and finished products made out of the raw material were shown to the students. Students could observe daily production charts and schedules. Doubts and queries were solved by Mr. Mulay. The date of the visit was 23.8.2017.

The second company students visited was Savan Ancillaries Pvt. Ltd. They are the manufacturers of defence equipment spare parts. The students were welcomed by Mr. and Mrs. Shivapurkar, the owners of the company. He interacted with the students for brief while. They addressed the students and introduced them the topic of Innovations in Defence Industry. The courteous staff showed all around the factory premises. The students could see the entire process of manufacturing specific parts requires for anti –tank mines, bullets etc. They could observe the automated process of scraping the defective part on a machine. It was 100% man free process.

Name of the Company: Adisan Laboratories Pvt. Ltd. & Indoschottle Auto Parts Pvt. Ltd.

Date: 23 December 2017

Report:

Industrial visit for students of SYBBA, SYBBA (IB), and FYBBA (IB) was organized to two companies namely, Adison Laboratories Pvt. Ltd. and Indoschottle Auto parts Pvt. Ltd. on 23 December 2017.

Adisan Laboratories came into existence in 1998. Adisan started with certain bulk drugs and a catalyst required in manufacturing of foot and mouth disease vaccine. Adisan started manufacturing of liquid applications for external and veterinary use only. Presently Adisan is having facility to manufacture liquid applications for external and veterinary use, liquid disinfectants and powder disinfectants used poultry. The students had to equip themselves with safety gloves and shoes at the shop floor. Post visit, the students had an interaction with the Managing Director Mr. Aditya Deodhar.

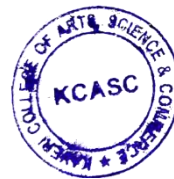

The next visit was held at Indoschottle Auto parts Pvt.Ltd. Indo Schöttle Auto Parts Pvt. Ltd. is India's largest manufacturer of Engine Valve Collets, Rocker Arm Screws, Turbocharger Components; Assemblies and Fuel System Parts & Assemblies. The total number students were 50. The students had an orientation in the A. V. Room about the industry and the safety measures. This was followed by the shop floor visit with an interactive question-answer round.

Name of the Company: Sandvik Asia Pvt. Ltd. and Shrid Metal Technologies Pvt. Ltd.

Date: 30 January 2018

Report:

The Industrial Visit for FY BBA(CA), and TY BBA was conducted on 30 January, 2018. It was conducted at two esteemed organizations-

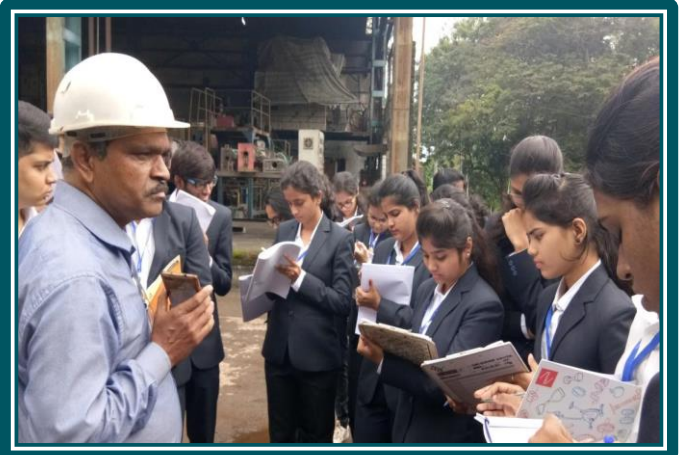

1. Sandvik Asia Pvt. Ltd.
2. Shrid Metal Technologies Pvt. Ltd.

Sandvik Asia Pvt Ltd is a global company founded in 1862 by Göran Fredrik Göransson in Sandviken, Sweden. Sandvik is a high-technology engineering group in tools and tooling systems for metal cutting, equipment, tools and services for the mining and construction industries, products in advanced stainless steel and special alloys as well as products for industrial heating. Sandvik has about 43,000 employees and sales in more than 150 countries. Students witnessed the entire manufacturing process and had an elaborate question-answer round with the Production Manager.

Shrid Metal Technologies Pvt. Ltd. The industry is located in Pirangut. Shrid Metal Technologies Private Limited is a Private incorporated on 01 September 2009. It is involved in Manufacture of structural metal products, tanks, reservoirs and steam generators. The students had a brief orientation in the Production Unit at Shrid Metal Technologies. We divided the students into group of 32 to see the manufacturing process in detail. The total number of students who attended the visit was 63.

Respected Sir/Madam.

On behalf of Kaveri College of Science and Commerce, Pune, I would like to thank you for granting us the permission to visit your esteemed organization.

The main reason of the visit is to show our students the working of a large industry like yours. We really appreciate the efforts taken to organize the visit of our students to your organisation which gave them the insights of the actual working of a large scale manufacturing unit.

We look forward for the long association with your organisation.
