UNDERGRADUATE PROGRAM OUTCOME

The prime objective of any graduate program is to impart certain life skills, employability skills and to improve critical thinking, problem solving attitude and also to provide industry / society exposure with a view to develop responsible youth for sustainable future. Therefore, Program Outcomes (POs) at UG level are defined as under:

PO – 1: Subject Knowledge: Students will develop fundamental domain knowledge of the course as students are completing three years for Bachelors in selected program, which would help them to inculcate learning skills and have necessary awareness on recent trends in different areas and its application.

PO – 2: Critical thinking, problem solving and research skills: Students will be able to develop a mindset for critical thinking, research attitude and problem-solving skills through various learning opportunities and exposure through collaborative / peer learning / individual tasks / observations experienced in teaching-learning pedagogies.

PO – 3: Skills Development: Students will be able to develop necessary skills like soft skills, hard skills, peer learnings, working in collaboration while having learning experiences and through participation in various activities conducted by the department. This helps them to integrate knowledge, skills and the right attitude towards peers as well as towards industry requirements and plan accordingly for further personal development.

PO- 4 Industry Exposure: Students will be able to receive industry exposure and be job ready by performing practicals on the basis of Industry Visit, Internships and guest lectures from Industry Experts. This will enable them to collect necessary experience in assimilating the real time application of concepts & theories in the industries and develop the curiosity for further education or employment.

PO – 5: Proactive leadership & Citizenship for sustainable future: Students will be able to develop leadership attitude and a sense of responsibility being citizen by exploring opportunities provided by college through experiential, participative and problem-solving learning experiences. Field Visits, Environment Projects, NSS participation etc. will make them aware of a sustainable future.

Kaveri College runs U.G. programs such as BCOM, BBA, BBA(IB), BBA(CA) in the faculty of Commerce & Management, BSC(CS) in the Faculty of Science and Technology, and BA in the Faculty of Arts. A specific program intends to impart skills, knowledge and expertise in discipline specific. Therefore, each program can have independent Program Specific Outcomes (PSOs) in concurrence with Program Outcomes (POs).
