Number of Participants enrolled the course: 66
Number of Participants completed the course: 34
Report: <p>The first ever Kaveri Leadership Development Programme for the Third Year students of the college was conducted from 11 October to 23 October, 2019. Mr. Munir Damani, Executive Coach and a Soft Skill Trainer, was invited to be the Resource Person for the Programme. The Programme was inaugurated by Principal Dr. Ashok Agrawal. He motivated the participants by stating that everybody has the leadership skill and that needs to be honed and channelized properly in the right direction.</p> <p>The programme covered sessions on areas/skills namely, Know Yourself, Goal Setting, Time and Stress Management, Communication Skills: Listening and Speaking, Interview Skills, Creating Effective Resume, Group Discussion, Leadership and Teamwork, Innovation and Creativity, Problem Solving and Negotiation Skills, Manners & Etiquette including E-mail Etiquette and Coping Skills. The objective of the Programme was to instil in students all the required skills to make them competent in their endeavours.</p> <p>Mr. Damani took the participants through a very challenging process in a subtle manner to make them understand the potential in all the above-mentioned skills, true ingredients for a successful leadership. Apart from guiding students on the above-mentioned skill sets, he also gave a list of sites like intershala.com, glassdoor.com, etc. to help students know more about the opportunities in their fields. Thus, the students had an amazing experience of knowing and exploring their potentials, gained confidence and learnt about new avenues of learning and growing. The Programme was a grand success owing to the commitment, dedication and intensive learning approach adopted by both the trainer and the participating-learners.</p>

BBA(CA)

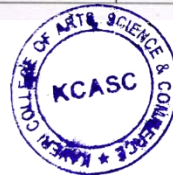

Name of the Course:	Digital Computer Architecture and Operations
Eligibility:	12 th Pass
Duration:	36 hours
Fees:	will be announced before starting the course.
Number of students:	60

Objectives of the Course:

1. To study the basic structure and operations of a digital computer.
2. To study fundamentals of Theoretical Computer Science.
3. To understand computer assembly and operating system installation.

Syllabus:

Sr. No	Topics	No. of Lectures
Unit 1	Number Systems Introduction to Binary, Octal, Hexadecimal system Conversion Simple Addition, Subtraction, 1's complement and 2's complement.	8
Unit 2	Logic Circuits: AND,OR,NAND,NOR,EXCLUSIVE OR and NOR Truth Table Gated Flip Flops	3
Unit 3	Boolean Algebra : Algebra Rules and DeMorgans Rules. Simplification of equations.	3

PRINCIPAL
Kannada Sangha Pune's

Unit 4	Circuit design using state table/K-map: K-Map using POS and SOP methods. Design of Full adder, full subtractor.	8
Unit 5.	Theoretical Computer Science Introduction: Symbol, Alphabet, String, Prefix & Suffix of Strings, Formal Language, Operations on Languages. Regular Expressions (RE) : Definition & Example Regular Expressions Identities.	4
Unit 6.	Finite Automata: Deterministic finite Automaton – Definition, DFA as language recognizer, DFA as a pattern recognizer. Nondeterministic finite automaton – Definition and Examples.	4
Unit 7	Demo: OS Installation and Components of computer.	6

Course Outcomes:

1. Students acquire basic knowledge about computer system architecture, arithmetic and digital circuits.
2. Students will learn fundamental of Theoretical Computer Science.
3. Students get knowledge of computer assembly and operating system installation

Name of the Course: Value Addition Certificate Course in Basic Quantitative Techniques

Eligibility: Second & Third Year BA Economics Special Students

Duration: 36 Hours

Fees: No Fees

Maximum number of students: 29

Objectives of the Course:

1. To introduce basic statistics tools that are used in economics studies
2. To enable the students to collect and analyze the data and test hypotheses using statistical methods.

Syllabus:

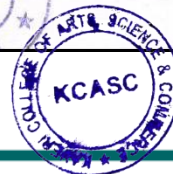

The topics covered during the course are - Measures of Central Tendency, Dispersion, Standard Deviation, Correlation and calculation of price indices, index numbers, Hypothesis, Slope and Elasticity.

Course Outcomes:

By the end of the course, students were able to understand the concepts like how the relationship between supply and demand, imports and exports, inflation rates, and per capita income etc. are studied using statistical methods. They were also enriched with the knowledge of use of statistical tools in economic research.

Name of the course: Value Addition Course on Basic Quantitative Techniques

Date: 18 June 2019 to 01 July 2019

Name of the Resource Person: Mrs. Shweta Bhagat Natu, KCASC, Pune.

Number of Participants enrolled the course: 29

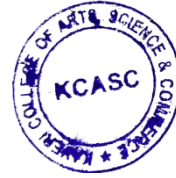

Number of Participants completed the course: 14

Report:

The course objective was to introduce basic statistics to economics special students.

In Economics research and statistical methods are used to collect and analyze the data and test hypotheses. The relationship between supply and demand and other micro and macro economic variables is studied by statistical methods; imports and exports, inflation rates, and per capita income are problems which require a good knowledge of statistics.

During the course Measures of Central Tendency, Dispersion, Hypothesis, Slope and Elasticity etc, topics were covered. Formative Method of teaching was applied to get effective outcome and clarity in the topics. 14 students out of 29 benefited from the course. Received helpful outcome and positive response.

Name of the Course: Mathematical Aptitude: Basic Concepts

Course credits: 2

Additional Course teaching hours: 36 hours (24 teaching hrs + 6 Laboratory hrs+6 evaluation hrs)

No. of proposed students: 70-80

Fees: Will be announced before starting the course.

Syllabus (Content):

- Basic mathematical operations and its tricks, DMAS rule.
- Shortcut tricks square: for finding square, square root, cube, cube root
- Coding, and decoding
- HCF, LCM
- Set and its properties.
- Venn diagram, syllogism
- Average
- Ratio and proportion

Outcomes:

1. Students come to know different aptitude formulas.
2. Understand time management.
3. Students can understand basic concept of quantitative aptitude.
4. Students can apply shortcut tricks to solve mathematical problems.

Justification of course:

- Different aptitude formulas and shortcut tricks are introduced.
- Syllabus will help those candidates who are preparing for competitive examinations.
- Students will familiar with strategies currently used in the mathematics classroom.

Report: The Value added course 'Mathematical Aptitude: Basic Concepts' was conducted from 15 th June 2019 to 24 th June 2019. The course was conducted for F.Y. B.Sc.(CS) students. Various types of short cut tricks of calculation were taught in this course. These tricks help students to learn techniques on how to solve questions quickly and also develop greater confidence in math. These tricks are very useful to reach to the expected correct answer. Students learned time management for mathematical calculation. Numbers of examples were solved during the lectures to understand the concept. Extra problem also was given for extra practice and for better understanding. After this course students will be able to recognize problem solving techniques appropriate to a given situation.

Number of Participants completed the course: 15

Report:

The objective of the course was to help the students develop counselling skills and make them acquainted with the counselling process. The course included topics related to counselling process, types, ethics and counselling procedure across ages. A movie was shown to help the students understand the process of therapy, and the approach of a therapist towards his client. A debate was conducted on the topic of 'Euthanasia', was included as a part of Applied Psychology, helping them view the dilemmas from societal and ethical perspective. Students were paired up and asked to play roles of a patient and counsellor to teach them the process of counselling. This included learning of rapport establishment, case history taking and Do's/ Dont's to be followed by a counsellor during the session.

The students were also introduced to CFI (Cultural Formulation Interview) by DSM 5 which was to guide them in detailed case history taking and help them understand the importance of cultural background in the development of disorder. Case Study was also a part of the course to train the students in making diagnostic formulation and in proposing a treatment plan.
